

## The "EnerKey"-Project

### Further steps and activities – a way forward

## Possible project phases within "EnerKey"

## The next steps in “EnerKey”

1. to fill the **communication pathways** and **exchange processes** with life
2. to identify and set up a **pilot project** as a case study and to commonly use and test **instruments and tools**
3. To develop a plan for **common activities** in the next project phases
4. to fix a date for and prepare the **exchange visit** in Stuttgart in 2006
5. ....
